

2011 IRC Squads – Updated 28 May

Behind this introductory page are:

- 1) Squad rotation schedule for the match
- 2) A list of the known registered competitors as of 28 May with special category selections indicated. Classifications are the most current and include scores received up to this date.
- 3) Squad assignments by name (these are also shown in the competitors list)
- 4) A list of competitors that do not have sufficient scores to be classified in the chosen Division. If those competitors do not shoot the pre-IRC classifier match to get the needed scores, they will compete as Unclassified. Division trophies are not awarded to Unclassified competitors, but the prize table is order of finish by Division, regardless of classification.

We are fairly certain that this update honors all the special requests that resulted from the first posting one week ago. If there are still problems or personal schedule changes will not allow you to make the assigned squad, please send an advance email to the IRC Statistician at stats@icore.org. We will not be able to post a new update before the match, but changes can be accommodated during registration.

Note that your shooter number will serve as your identity throughout the match. For any responses by correspondence or visits to the scoring table during the match, please identify yourself by shooter number first and name second. That makes our job much easier as we try to assist our competitors.

This is the last web posting for the squad information. Any subsequent changes must be made during registration on Wednesday, 1 June at the IRC. We look forward to visiting with each and every one of you.

Have a safe trip enroute to the IRC.

Best regards to all,

Ron Williamson
IRC Statistician
